REQUEST FOR PROPOSALS

Construction Management at-Risk (CM/GC) Services

“EGHC Swainsboro Phase III Renovations”

East Georgia Healthcare Center
Swainsboro, Georgia

The East Georgia Healthcare Center As (“Owner”), is soliciting statements of qualifications from firms interested in providing construction management at-risk services for the construction of a project known as **“EGHC Swainsboro Phase III Renovations”** East Georgia Healthcare Center, 215 North Coleman Street, Swainsboro, Georgia, 30401. This Request for Proposals (RFP) seeks to identify potential providers of the above-mentioned services. Some firms that respond to this RFP, who are determined by the Owner to be especially qualified, may be deemed eligible and may be invited to interview, however, it is the intent of the Owner to award the contract based solely on the submitted proposals. All respondents to this RFP are subject to instructions communicated in this document and are cautioned to completely review the entire RFP and follow instructions carefully. The Owner reserves the right to reject any or all proposals, and to waive technicalities and informalities at their discretion.

1. GENERAL PROJECT INFORMATION

Project Background

The intent of this project is to renovate roughly 3,811 s.f. of existing interior warehouse/retail space into 1,621 s.f. of optometrist clinic and 2,190 s.f. of resident apartments. There will also be some minor renovations to exterior covered areas and roughly 10,000 s.f. of new paving.

Project Description

It includes new parking, paved drives and new islands. The left most bay will have an apartment (dorm) type set up for four bedrooms, kitchen, living area, study area, laundry, pantry, janitor, etc. The apartments will share an emergency corridor with the existing offices. **It should be noted that this project has a hard deadline of September 14, 2024 by which time all of the money must be allocated. As such, the process will be CM at Risk, with many of the MEP and Civil details worked out in the field to save time in the design process. The CM will work throughout, with the architect, in a design-build type of delivery and will need the capacity to mobilize immediately after contract negotiations.**

Finally, an optometrist clinic will be built-out at the front 1,621 s.f. It will include optical/retail, reception, toilet room, offices, contact fitting room, pretest room and four exam rooms. The clinic will use the existing storefront entry and will tie into the corridor behind the existing conference room. Testing and abatement have been completed by the Owners. **Note that it is the Owner’s intent to offer a bonus for delivering the optometrist clinic portion of the job at least 30 days ahead of schedule.**

Sustainable Approach

In the interest of creating an environment that is healthful and comfortable for its various occupants and reducing operating cost the proposed project should adopt recommendations of the United States Green Building Council Leadership in Energy and Environmental Design (LEED) Green Building Rating System when economically feasible to do so. **However, LEED rating will not be included in the scope of work and commissioning will not be required.**

Project Delivery Method

The delivery method for this Project will be CM @ Risk (CM/GC).

Project Budget

The preliminary stated cost limitation (SCL) or construction cost of the Project is estimated at **\$675,000**. The final SCL may be revised by the Owner due to final programmatic requirements, funding availability or other circumstances.

Design Professional

The Design Professional firm will provide design and construction/permit documents for the project. Construction documents will be developed with the CM during pre-construction services. **The start of construction is anticipated to begin in the third week of March, 2024.** *(All of the dates above are estimates and are contingent on the availability of funding and unforeseen impacts to the construction schedule).*

2. CONSTRUCTION MANAGEMENT AT-RISK SERVICES REQUIREMENTS

The CM/GC will be expected to work collaboratively with the Design Professional to develop component bid packages during the course of construction. The prospective CM/GC will provide preconstruction services which may include, without limitation, technical review, cost verification, cost evaluation, value engineering, schedule development, and schedule evaluation, development of MEP systems with the licensed sub-contractors, in addition to management of the construction. In addition, CM/GC will be responsible for methods of construction, safety, and the scheduling and coordination of the work of all construction and miscellaneous contracts required for completion of the project within its predetermined budget and schedule. The successful CM/GC will be required to work collaboratively with the Owner's consultants.

Award Conditions

This request is not an offer to contract or a solicitation of bids. This request and any statement of qualifications or proposal submitted in response, regardless of whether the proposal is determined to be the best proposal, is not binding upon the Owner and does not obligate the Owner to procure or contract for any services. Neither the Owner nor any party submitting a response will be bound unless and until a written contract mutually accepted by both parties is negotiated as to its terms and conditions and is signed by the Owner and a party containing such terms and conditions as are negotiated between those parties. The Owner reserves the right to waive non-compliance with any requirements of this Request for Proposal and to reject any or all proposals submitted in responses. Upon receipt and review of responses, the Owner will determine the party(s) and proposal that in the sole judgment of the Owner is in the best interest of the Owner (if any is so determined), with respect to the evaluation criteria stated herein. The Owner then intends to conduct negotiations with such party(s) to determine if a mutually acceptable contract may be reached.

Joint-Venture Proposals

The Owner does not desire to enter into “joint-venture” agreements with multiple firms. In the event two or more firms desire to “team up” it is strongly recommended that one incorporated firm propose and maintain status as the contracted lead firm with the remaining firms participating as major consultants to the lead firm.

Minority and Small Business Enterprise

It is the policy of East Georgia Healthcare Center that minority-owned business enterprises (MBE), woman-owned business enterprises (WBE), and small business enterprises (SBE), have a fair and equal opportunity to participate in the County purchasing process. Therefore, the Owner encourages all MBE, WBE, and SBE to compete for contracts to provide goods, services, and construction, and encourages contractors to solicit MBE, WBE, and SBE in procuring subcontractors and suppliers. This desire on the part of the Owner is not intended to restrict or limit competitive bidding or to increase the cost of the work. The Owner supports a healthy free market system that seeks to include responsible businesses and provides ample opportunity for business growth and development.

Immigration Reform Compliance Requirement.

In order to comply with immigration requirements under Georgia law as set forth in OCGA 13-10-91, proposers must include in their proposals a completed and executed “Contractor Affidavit Under OCGA 13-10-91(b)(1)” in the form included herein as Exhibit B. Proposals that are not accompanied by a completed and executed “Contractor Affidavit Under OCGA 13-10-91(b)(1)” cannot be considered pursuant to Georgia law. In addition, the successful proposer shall not enter into any subcontract unless the subcontractor registers and participates in the federal work authorization program and submits, at the time of the subcontract, a completed and executed “Subcontractor Affidavit Under OCGA 13-10-91(b)(3)” in the form included herein as Exhibit C. Furthermore, the successful proposer shall require subcontractors not to enter into any contracts with sub-subcontractors unless the sub-subcontractor registers and participates in the federal work authorization program and submits, at the time of the contract with the sub-subcontractor, a completed and executed “Sub-subcontractor Affidavit Under OCGA 13-10-91(b)(4)” in the form included herein as Exhibit D.

With submission of a proposal, the Proposer agrees that he/she has carefully examined the Request for Proposals (RFP), and the Proposer agrees that it is the Proposer’s responsibility to request clarification on any issues in any section of the RFP with which the Proposer disagrees or needs clarified. The Proposer also understands that failure to mention these items in the proposal will be interpreted to mean that the Proposer is in full agreement with the terms, conditions, specifications and requirements in the therein.
